

FINITE MATH – SECTION 08 – FALL 2006

Instructor: Chad Malott , GTA

Phone: 407-823-1216

E-mail: cmalott@mail.ucf.edu

Office: MAP 201

Office Hours: MW: 2:00 – 3:00 pm, F: 10:00 – 11:00 am

Math Lab Hour: TH: 12:00 – 1:00 pm (located in MAP 113)

Class: During each class I will address any questions you may have pertaining to the class. We will spend 35 minutes going over problems from the text, and then you will be given a 15 minute quiz. It is important that you have the homework problems ready at the beginning of class, though I will usually add some of my own.

Quizzes: Each quiz will consist of five questions worth two points each. You may use a scientific calculator, but no graphing or cell phone calculators. There will be a quiz given each week, and the two lowest scores will be dropped before your final quiz grade is calculated. **There will be no make-up quizzes given.**

Exam Results: After each exam I will give you back your score during the next discussion class. You may get your score earlier if you wish by visiting me during office hours, **but scores cannot be communicated via e-mail or telephone.**

Note: All cell phones and laptops should be turned off prior to the discussion class. All questions and comments should be addressed to me. Any behavior that does not conform to the standards of the university may result in your removal from the class, and a zero given for the quiz.
